

Why did you decide to do an apprenticeship with Ingleton Wood?

I was in full time education and felt it wasn't the right path for me, I wanted to be learning in a more hands on way and after a lot of research into business administration apprenticeships I realised it was the right option. I knew people who worked at Ingleton Wood and what a great company it was, so as soon as this role opened, I knew I wanted the job.

How have you found it so far?

I'm really enjoying my role and like having responsibility and independence. I'm constantly learning and always kept busy which makes it so much more enjoyable; no two days are the same and that's one of the things I love most about it. The team I work with are so friendly, there's always someone on hand to help no matter what the problem is and everyone's so supportive of each other.

Would you recommend an apprenticeship at Ingleton Wood?

I would absolutely recommend an apprenticeship at Ingleton Wood, even in the short time I've been here, I've had such a positive experience and been so greatly supported by my colleagues. Being so young, it can be daunting, but at Ingleton Wood I've never been made to feel like someone who is less experienced or less adequate; everyone is treated equally and the support network is amazing.
